

酒醉？

有個老人愛酒醉
喝了三杯就想睡
家裏完全沒有人
隔壁也不去敲門
沒有朋友跟他答
家人也都忘了他
誰知發現痛了腦
還好吃了特效藥

This poem started as a lighthearted nursery rhyme but as it progresses, we find out that this old man was lonely and is now in a state of depression. At the end of the poem, it mentions how he had a headache and he took pills to relieve his pain. Remember that he was drinking at the beginning of the poem and so we know that he actually committed suicide due to his loneliness and depression.
