

## **Microsoft IME setting in Windows 10 and 11**

Windows 10/11 allows you to select between the tradition and simplified set of characters under the simplified language pack. Here is how you will set up your Pinyin/Traditional input method:

1. Select Start , then select Settings > Time & language > Language/region
2. Scroll down and select Chinese (Simplified, China)
3. Select Language options.
4. In the Keyboards section, select Microsoft Pinyin.
5. Select Options under Microsoft Pinyin.
6. Select General > Choose a Character Set > Traditional Chinese
