

Easiest Ways to Create a Video Presentation

You may use **any ONE** of the following tools to create your video:

Canva (Recommended)

- Create slides directly in Canva
- Use **Present & Record** to record **your voice and your face**
- Download or share the video link

VoiceThread

- Upload your slides to VoiceThread
- Record **voice and webcam** comments for each slide
- Share the VoiceThread link

Google Slides + Recording Tool (Loom or Screencastify)

- Create slides in Google Slides
- Record your screen **with your face and voice**
- Share the video link

Zoom

- Start a Zoom meeting
- Share your slides and turn your camera on
- Record your presentation
- Upload the video and share the link

✓ Requirements (Apply to ALL options)

- One **title slide** with your name and presentation title
- **At least FIVE content slides** that accompany your essay
- **Voice recording AND your face must be visible**
- Final product must be a **shareable video link**
- Post the link on **Edublogs (TBA)**
